Proposal for a

## **COUNCIL REGULATION**

**fixing for the 2013 fishing year the guide prices and Union producer prices for certain  
fishery products pursuant to Regulation (EC) No 104/2000**

## **EXPLANATORY MEMORANDUM**

### **) CONTEXT OF THE PROPOSAL**

#### **• Grounds for and objectives of the proposal**

The immediate objective of this proposal is to enable the Council to discharge its regulatory obligation to determine the guide prices and the Union producer price for the fishing year 2013. The wider objective of this proposal is thus to ensure the functioning of the price support and intervention mechanisms laid down in Council Regulation (EC) No 104/2000 during the fishing year in question.

#### **• General context**

Council Regulation (EC) No 104/2000 establishes a Common Organisation of the Markets in Fishery and Aquaculture Products, which pertains to the market- and trade-related aspects of the Common Fisheries Policy and thus also serves to implement the objectives enshrined in Article 39 of the Treaty on the Functioning of the European Union. Specific price support and intervention mechanisms are one important component of the Common Market Organisation. In this context, Article 43(3) of the Treaty empowers the Council to adopt, upon a proposal from the Commission, measures on the fixing of prices. This concerns the guide prices for a specified number of fishery products of EU importance as well as the Union producer price for specified tuna products. The guide prices form the reference for the subsequent fixing, by way of Commission implementing regulations, of the different technical parameters needed for the operation of the intervention mechanisms. The Union producer price is of relevance for the compensatory allowance for tuna delivered to the processing industry, which might be triggered when prices on the world markets fall below a specified trigger level.

Pursuant to Council Regulation (EC) No 104/2000, the relevant prices shall follow both the development of market prices during the three preceding fishing years as well as trends in production and demand. In line with that, the proposal is for adjustments of between -1% and +1.5% for most whitefish species; for increases between +1.5% and +2.5% for a majority of pelagic species; and for increases between +0.5% and +3% for most crustaceans. In the field of frozen species, the proposal reflects increases between +1% and +3% for a majority of products. Finally, the proposal is for increasing the Union producer price for tuna products by +2%.

#### **• Existing provisions in the area of the proposal**

Council Regulation (EU) No 1388/2011 fixing for the 2012 fishing year the guide prices and Union producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000.

#### **• Consistency with the other policies and objectives of the Union**

The functioning of the Common Market Organisation set up by Council Regulation (EC) No 104/2000 and the discharge of the regulatory obligations pertaining thereto also serve to implement the objectives enshrined in Article 39 of the Treaty on the Functioning of the European Union.

### **) CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT**

## **Consultation of interested parties**

### *Consultation methods, main sectors targeted and general profile of respondents*

The Examination Committee for Fishery Products and the Advisory Committee on Fisheries and Aquaculture.

### *Summary of responses and how they have been taken into account*

The views of both Committees have provided valuable input to the Commission's market analysis.

## **Collection and use of expertise**

### *Scientific/expertise domains concerned*

Markets in fishery products.

### *Methodology used*

Open consultation.

### *Main organisations/experts consulted*

Experts representing the Member States at the Examination Committee for Fishery Products.  
Experts representing all major groups of EU stakeholders at the Advisory Committee for Fisheries and Aquaculture.

### *Summary of advice received and used*

The existence of potentially serious risks with irreversible consequences has not been mentioned.

Advices are usually reflected in the proposal fixing the guide prices and Union producer prices.

### *Means used to make the expert advice publicly available*

Minutes of the meetings of the Examination Committee for Fishery Products and the Advisory Committee for Fisheries and Aquaculture.

## **• Impact assessment**

Considering the specific nature of the proposal, namely the annual determination of relevant prices pursuant to the provisos of the Common Market Organisation in its present version, an impact assessment is not required.

The proposal is nevertheless based on a regular monitoring on interventions in the preceding fishing years and a thorough analysis of the market situation for each one of the relevant fishery products.

## **) LEGAL ELEMENTS OF THE PROPOSAL**

- **Summary of the proposed action**

Proposal for a Council Regulation fixing for the 2013 fishing year the guide prices and Union producer prices for certain fishery products.

- **Legal basis**

Article 43(3) of the Treaty on the Functioning of the European Union.

- **Subsidiarity principle**

The proposal falls under the exclusive competence of the Community. The subsidiarity principle therefore does not apply.

- **Proportionality principle**

The proposal complies with the proportionality principle for the following reason(s).

The attainment of the Single Market in the field of fisheries products requires the fixation of guide prices. The Common Market Organisation provides for specific intervention mechanisms but forces none of the relevant actors (producer organisations) to have recourse to intervention.

The Common Market Organisation has considerably decreased both the attractiveness of intervention in the form of wasteful withdrawals as well as the corresponding financial means.

**Choice of instruments**

Proposed instruments: regulation.

Other means would not be adequate for the following reason(s).

The guide prices and Union producer prices shall be fixed by the Council acting on a qualified majority on a proposal from the Commission. A regulation is required to ensure direct applicability and uniformity throughout the EU.

) **BUDGETARY IMPLICATION**

Since this is a price-fixing exercise, the impact on expenditure is indirect and will largely depend on developments in the market situation and on quantities of fishery products landed.

Proposal for a

## **COUNCIL REGULATION**

**fixing for the 2013 fishing year the guide prices and Union producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(3) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) Article 43(3) of the Treaty provides that the Council, on a proposal from the Commission, is to adopt measures on the fixing of prices.
- (2) Regulation (EC) No 104/2000 of 17 December 1999 on the common organisation of the markets in fishery and aquaculture products<sup>1</sup> requires that guide prices and Union producer prices for each fishing year be fixed in order to determine price levels for intervention on the market for certain fisheries products.
- (3) It is incumbent upon the Council to fix the guide prices for each of the products and groups of products listed in Annexes I and II to Regulation (EC) No 104/2000, and the Union producer prices for the products listed in Annex III to that Regulation.
- (4) On the basis of the data currently available on the prices for the products concerned and the criteria laid down in Article 18(2) of Regulation (EC) No 104/2000, the guide prices should be increased, maintained or reduced for the 2013 fishing year depending on the species.
- (5) It is appropriate to establish the Union producer price for one of the products listed in Annex III to Regulation (EC) No 104/2000 and to calculate the Union producer prices for the others by means of the conversion factors established by Commission Regulation (EC) No 802/2006 of 30 May 2006 fixing the conversion factors applicable to fish of the genera *Thunnus* and *Euthynnus*<sup>2</sup>.
- (6) On the basis of the criteria laid down in the first and second indent of Article 18(2) and in accordance with the procedure laid down in Article 26(1) of Regulation (EC) No 104/2000, the Union producer price for the 2013 fishing year should be fixed,

<sup>1</sup> OJ L 17, 21.1.2000, p. 22.

<sup>2</sup> OJ L 144, 31.5.2006, p. 15.

HAS ADOPTED THIS REGULATION:

*Article 1*

For the fishing year from 1 January to 31 December 2013, the guide prices as provided for in Article 18(1) of Regulation (EC) No 104/2000 shall be as set out in Annex I to this Regulation.

*Article 2*

For the fishing year from 1 January to 31 December 2013, the Union producer prices as provided for in Article 26(1) of Regulation (EC) No 104/2000 shall be as set out in Annex II to this Regulation.

*Article 3*

This Regulation shall enter into force on 1 January 2013.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

*For the Council*  
*The President*

## LEGISLATIVE FINANCIAL STATEMENT FOR PROPOSALS

### FRAMEWORK OF THE PROPOSAL/INITIATIVE

#### Title of the proposal/initiative

Proposal for a Council Regulation fixing for the 2013 fishing year the guide prices and Union producer prices for certain fishery products pursuant to Regulation (EC) No 104/2000

#### Policy area(s) concerned in the ABM/ABB structure<sup>3</sup>

Policy Area 11: Fisheries and Maritime Affairs

#### Nature of the proposal/initiative

- ☐ The proposal/initiative relates to **a new action**
- ☐ The proposal/initiative relates to **a new action following a pilot project/preparatory action**<sup>4</sup>
- ☒ The proposal/initiative relates to **the extension of an existing action**
- ☐ The proposal/initiative relates to **an action redirected towards a new action**

#### Objectives

*The Commission's multiannual strategic objective(s) targeted by the proposal/initiative*

Resource efficient Europe

*Specific objective(s) and ABM/ABB activity(ies) concerned*

#### Specific objective No 1

To contribute to the objectives laid down by the Treaty (Article 39) by increasing the sustainability of fishing activities, ensuring minimum incomes for the producers, stabilisation of the market, availability of supply and reasonable prices for the consumers, and compensating the additional costs incurred in the marketing of fishery products from the outermost regions.

#### ABM/ABB activity(ies) concerned

Activity ABB 11 02: Fisheries markets

<sup>3</sup> ABM: Activity-Based Management – ABB: Activity-Based Budgeting.

<sup>4</sup> As referred to in Article 49(6)(a) or (b) of the Financial Regulation.

### *Expected result(s) and impact*

*Specify the effects which the proposal/initiative should have on the beneficiaries/groups targeted.*

Prevalence of carry-over operations over withdrawals

Guide price fluctuations remain limited (between +3% and -3%).

### *Indicators of results and impact*

*Specify the indicators for monitoring implementation of the proposal/initiative.*

Level of carry-over operations and withdrawals of fishery products

Evolution of guide prices of fishery products

### **Grounds for the proposal/initiative**

*Requirement(s) to be met in the short or long term*

The interventions concerning fishery products are carried out under the Common Fisheries Policy (CFP) in accordance with Article 40 of the TFEU. They aim at providing stability to the EU markets by preventing possible risks of crisis. In this context, appropriate price and supply policies are of utmost importance. The interest of the production and marketing chain and the need to strengthen the competitiveness of the sector in a context of globalisation must be taken into account. The objective of market stability together with the support to producers' income can essentially be achieved through the different mechanisms of intervention on the markets, e.g. withdrawals, carry-over, compensatory allowance. The interest of the consumers must also be considered

*Added value of EU involvement*

The question of subsidiarity is not relevant to this proposal since intervention falls within the exclusive competence of the EU. The added value of EU intervention is directly related to the underlying arguments of the existence of a Common Organisation of the Markets in fishery and aquaculture products

*Lessons learned from similar experiences in the past*

The yearly fixation of the guide prices and the Union producer price contribute to the attainment of the Single Market in the field of fisheries products

The Common Market Organisation has considerably decreased both the attractiveness of intervention in the form of wasteful withdrawals as well as the corresponding financial means

Price support and intervention mechanisms are one important component of the Common Market Organisation. The guide prices provide the basis for the subsequent fixing of the different parameters needed for the operation of the intervention mechanisms for the fishing year concerned. Similarly, the Union producer price forms the basis for the granting of the compensatory allowance for tuna which might be triggered depending on the development of prices on the world markets

**Duration and financial impact**

- ☒ Proposal/initiative of **limited duration**
- ☒ Proposal/initiative in effect from 01/01/2013 to 31/12/2013
- ☐ Financial impact from YYYY to YYYY
- ☐ Proposal/initiative of **unlimited duration**

Implementation with a start-up period from YYYY to YYYY,  
followed by full-scale operation.

**Management mode(s) envisaged<sup>5</sup>**

- ☒ **Centralised direct management** by the Commission
- ☐ **Centralised indirect management** with the delegation of implementation tasks to:
  - ☐ executive agencies
  - ☐ bodies set up by the Communities<sup>6</sup>
  - ☐ national public-sector bodies/bodies with public-service mission
  - ☐ persons entrusted with the implementation of specific actions pursuant to Title V of the Treaty on European Union and identified in the relevant basic act within the meaning of Article 49 of the Financial Regulation
- ☐ **Shared management** with the Member States
- ☐ **Decentralised management** with third countries
- ☐ **Joint management** with international organisations (*to be specified*)

<sup>6</sup> As referred to in Article 185 of the Financial Regulation.

As of 16 October 2006, the measures financed under the budget heading 11.02.01 are implemented in a centralised manner pursuant to Council Regulation (EC) No 1290/2005 on the financing of the common agricultural policy. Furthermore, the management of data notified by the Member States in accordance with Commission Regulation (EC) No 248/2009 is the sole responsibility of the Commission

## **MANAGEMENT MEASURES**

### **Monitoring and reporting rules**

*Specify frequency and conditions.*

The monitoring of the envisaged measures is ensured through the collection and the analysis of data notified by the Member States by way of the FIDES system in accordance with Commission Regulation (EC) No 248/2009

### **Management and control system**

*Risk(s) identified*

[...]

[...]

*Control method(s) envisaged*

The proposal is based on regular monitoring of interventions in previous fishing years and thorough analysis of the market situation for the relevant products

### **Measures to prevent fraud and irregularities**

*Specify existing or envisaged prevention and protection measures.*

The anti-fraud measures are in conformity with the provisions laid down in Regulation (CE) No 104/2000 and, in particular, with the provisions laid down in Regulation (EEC) No 595/91 concerning irregularities and the recovery of sums wrongly paid
